The National Weather Service will train new or veteran spotters, including interested citizens, amateur radio, CERT, citizen corps, and law enforcement, fire, transportation and public works staff, on how to look for and report significant event-driven weather events. Training includes video demonstrations. Spotters are needed, particularly in the rural parts of Island County, as well as among those who have weather instrumentation, such as an anemometer.

If planning to attend this spotter training session, please RSVP so an appropriate number of handout materials can be on hand. Class capacity is 36, so sign up early. We look forward to seeing you at this or other Skywarn Spotter training sessions, and receiving your hazardous weather reports.

From Stanwood, take SR 532 west to Terry's Corner, then left onto N. East Camano Drive. Continue south past Cross Island Road, past shopping area and Camaloch Golf Course on right. Senior Center is located in County Annex area on right hand side of the road just after Can Ku Road.
